

# Shure and Barco ClickShare Conference Solutions

High quality audio and wireless conferencing

The powerful combination of Shure networked audio solutions and ClickShare Conference has just what your business needs. In a hybrid and remote workplace, you want to rely on effective collaborative solutions in any meeting room. Together we help you to bring engaging meeting experiences to all employees, enable closer collaboration and, in the end, improve your business outcomes.

## **Flawless meeting audio and seamless BYOD solutions, at any scale**

Shure's product portfolio includes the complete audio signal chain from microphone to DSP to loudspeaker. ClickShare Conference shares content from your laptop on the meeting room display and wirelessly connects to the cameras, speakers and mics in the room for better hybrid meetings. Our joint flexible solutions fit environments of all types, from small meeting rooms to large conference spaces, with unmatched ease of deployment, less complexity and remote management. Allowing your workforce to connect the way they want and making good audio sound better. Better Together.

# Benefits

## High-quality audio combined with innovative wireless conferencing solutions

Shure and ClickShare Conference offer you top-notch solutions that power high quality collaboration in the workplace. When connecting colleagues from multiple locations, you can't let echo, noise, or distortion take over the meeting. The Shure IntelliMix® P300 enhances every aspect of conference audio. Flexible signal routing allows for seamless connectivity between rooms, laptops and even mobile devices. Combined with Microflex® Advance™ or Microflex® Wireless microphones, the clear sound reproduction and intelligent mixing brings clear communication.

ClickShare Conference enables a truly flexible way of hybrid working by introducing a revolutionary solution that responds to the increasing need for BYOM (Bring Your Own Meeting) in the workplace. With BYOM you walk into any meeting room and wirelessly host a video conference from your own device. Within seconds you benefit from the AV setup of the room you are in. Of course, using your preferred conferencing solution.

## Proven solutions that just work

Our joint solutions have been tested to work seamlessly together so you can proceed with confidence that our wireless conferencing and audio solution will meet expectations in terms of rapid implementation, better performance and reliability, and a higher quality experience for everyday users.

## Ready for any Collaboration Platform

Shure and ClickShare work seamlessly with leading third-party software and hardware conferencing platforms, including Zoom, Microsoft Teams, Cisco, and many others. Equip your workspaces for wireless conferencing with Shure networked audio and ClickShare Conference to take full advantage of the best BYOD and BYOM support.

## Flexible options for all meeting room sizes

Together Shure and ClickShare Conference offer a menu of turn-key solutions to suit different room types or sizes, from small meeting rooms to large conference spaces, with unmatched ease of deployment, less complexity, and remote management.
