

Brilliant hybrid video collaboration

The art of easy video collaboration in any meeting room

Vaddio video conferencing cameras and Barco ClickShare Conference offer a truly brilliant hybrid collaboration experience for all your huddle, meeting and boardrooms. Simple, easy, wireless. That's how ClickShare Conference shares the apps from your laptop on the room display and connects them to the display and the Vaddio conferencing camera in the room for better hybrid meetings.

Connect wirelessly to remote co-workers using the unified communication platform of your choice in a matter of seconds and enjoy a superior audio and video both in-room and remote. The excellent video quality and full room, handsfree audio conferencing from Vaddio's conferencing portfolio gets everyone in the picture and ensures everybody is being heard. Easy to deploy, easy to manage and easy to use, Barco ClickShare Conference and Vaddio conferencing cameras make all meetings immersive, inspiring and productive.

Benefits

IntelliSHOT

High quality meeting experiences for every space

Impress remote and in-room users with superior, hybrid meetings. The combined solutions range fits the requirements of any space: from huddles, meeting rooms of any size to ad hoc spaces. Also, mounting the combined solution to an AV cart from Legrand AV's Chief brand offers a Plug&Play mobile conferencing solution.

RoboSHOT

The safe bet for IT

Vaddio and Barco ClickShare Conference solutions are enterprise-grade thanks to industry leading security, intuitive user interfaces and remote management capabilities. Easy to deploy & manage, they are a wise and safe choice for every IT department looking for premium, professional wireless conferencing.

ConferenceSHOT

BYOM with ease

ClickShare Conference instantly connects to the Vaddio video conferencing cameras and the meeting room display. Both tested to work seamlessly together, Vaddio and Barco ClickShare are extremely easy to use.

HuddleSHOT

Flexible & agnostic

Barco ClickShare Conference and Vaddio video conferencing cameras are truly agnostic. The joint solutions work with any device (laptop or Mac), with all major cloud-based conferencing applications (Zoom, Microsoft Teams, Google Meet, Cisco WebEx, GoToMeeting and others), with any display (LG, Sharp...).
