

DP2K-32B

Ultra-bright DLP Cinema projector for screens up to 32m (105ft)

The top-of-the-line Barco DP2K-32B is the brightest digital cinema projector on the planet. Thanks to this record light output, the unique DP2K-32B is the ultimate 3D machine for screens up to 32m (105ft) wide. Thanks to its unmatched image brightness, vibrant colors and exceptionally rich contrast levels it will create an unparalleled 3D experience for your audience, as well as more box-office potential for your theater.

Low cost of ownership

Keeping operating cost low was a top priority when developing the DP2K-32B. All core components have therefore been designed for easy serviceability and extended product lifetime.

Easy maintenance

The DP2K-32B projector has an easy-to-use, fully **modular** architecture. This modularity significantly minimizes downtime, allows for a minimum spare parts stock and speeds up technicians' learning curves, which significantly reduces cost of ownership.

Also available with Barco Alchemy

The DP2K-32B is also available with the Barco Alchemy Integrated Cinema Media Processor.
