

Your project. Our projection.

Our family of projectors is growing: welcome the new F80-12Ks. Here to make things easier for you.

Planning a 4K set-up with bright projection, high-quality blending and minimum noise level? Then the F80 brothers are your partners in crime. Play with the full palette of color, lumens and pixels from the extended family of single-chip projectors.

From simple to complex. Your project, our projection.

F80. And family.
