

# Your project. Our projection.

Our family of projectors is growing: welcome the new G60 brothers. Available in both black and white to fit into every environment.

With brightness from 7 to 10K lumens, the G60s have got you covered with the guaranteed Barco quality for your day-to-day projects. Need more? Why not team them up with one of their higher-spec cousins? Play with the full palette of color, lumens and pixels from the extended family single-chip of projectors.

From simple to complex. Your project, our projection.

**G60. And family.**
