

ClickShare

Enhance your Microsoft Teams or Zoom room experience with ClickShare

Fixed conference room solutions like a Microsoft Teams or Zoom room provide a simple way to have a videoconference or a hybrid meeting. They usually offer a way to share screen content with other meeting participants. But essentially, the stress is on conferencing, not on collaborating. Adding ClickShare to your fixed set-up enhances interactivity, productivity and collaboration in your Microsoft Teams and Zoom meetings. It makes meetings simple, easy and wireless.

How to add wireless presentation to a Microsoft Teams or Zoom room?

Benefits of adding ClickShare wireless presentation to your fixed conference room

1. Wireless content sharing into your Microsoft Teams or Zoom room
 - a. No HDMI cables or adaptors needed
 - b. No need to hand over and change a cable if you switch presenters
 - c. Long cables make the table messy and unsafe
2. Same easy way of sharing in face-to-face or hybrid meetings
 - a. Everyone in the meeting room can share, no need to join the videocall
 - b. No need to install drivers
 - c. Avoid audio interferences from other laptops dialing in, no bandwidth issues
3. BYOD, share any way you want, wireless
 - a. Share from any laptop with the ClickShare Button or Desktop App
 - b. Flexibility to use tablets & smartphones for sharing content via the ClickShare App, Airplay, Google Cast or Miracast
4. Two sources on screen in the meeting room and in the video call
 - a. In a standard fixed conference room setup, only one person can share at the same time
 - b. With ClickShare, multiple pieces of content can be shared side by side on the room display and in the VC call
5. Guest-friendly: anyone can share, employees or guests
 - a. Guests can easily join the meeting and share content on the meeting room display and in the VC call
 - b. Choose your way of sharing: ClickShare Button, or any BYOD protocol (Airplay, Google Cast, Miracast)
