

ClickShare

Wireless conferencing for better hybrid meetings

Simple, easy, wireless. That's how ClickShare Conference lets you run better hybrid meetings from your laptop. Smart meeting flows make your meetings intuitive and stress-free. In seconds you share your content wirelessly on the room display and connect to the camera and speakers in the room.

Join the next Microsoft Teams call on your agenda with just one click. With either the ClickShare Button or App, you decide which suits you best. In less than 7 seconds you connect wirelessly to the camera and speakers in the room. The same is true for your Zoom, Webex by Cisco or other calls as well.

- Connects your device wirelessly to cameras, mics, speakers and soundbars in the room
- Enjoy more equitable, stress-free meetings with a revolutionary set of intent-based features for a better meeting flow
- Involve remote participants more actively
- Create higher meeting engagement for all participants
- Use the conference tool that you find most productive
- No more frictions when hosting conferences from your laptop
- No more struggles with meeting room equipment
- No cables or additional wires
- Unique collaborative features

A truly agnostic solution

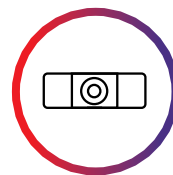

The power of ClickShare Conference lies in the freedom to choose. You decide how you collaborate securely.

From whichever **device** you want to, in any meeting space

With the **UC or videoconferencing tool** of your choice (e.g Skype, Zoom, Microsoft Teams, Webex by Cisco, BlueJeans....)

Connecting to any* **AV solution** in the meeting room

* A list of compatible solutions is available on barco.com/clickshare

ClickShare

Better hybrid meetings? Yes! With smart, intuitive meeting flows

Walk into the room, you immediately see if the room is available or booked. Automatically connect to the meeting room (**PresentSense** ultrasound proximity detection) or plug in a Button. ClickShare guides you as a host or participant (**HostFlow**). Start the meeting from your personal calendar with a single click (**One-Click-Join**).

Share your presentation, keep track of remote participant's video, side by side (**ConferenceView**). Share full screen or application window, while keeping your laptop screen private for note taking. When you end the call, the meeting room becomes a digital signage display.

ClickShare Button

- Instantly makes meeting room video and audio streams available to your laptop
- Has an additional **Quick Button** that brings up the App, so you have immediate access to advanced meeting controls.

ClickShare Desktop App

- Makes meeting room peripherals available to your laptop
- Connects instantly to the meeting room thanks to (PresentSense) detection from your laptop or mobile device
- Advanced set of collaboration features: pause, window selection, extended desktop, ideation.

Button and App work perfectly together and offer **one unified, intuitive user experience throughout the entire enterprise**, in any type of huddle, meeting or boardroom. ClickShare Conference gives immediate access to wireless conferencing, interactive sharing and feature-rich collaboration.
